## The PDF Experts

This document provides updated information about our PDF technologies, new product releases, extensive client list and more details about the advantages that our customers enjoy.

In summary, our PDF technologies are:

- *Behind thousands of applications and millions of desktops worldwide*
- *The most high-performing PDF development products on the market today*
- *Proprietary—enabling us to provide PDF solutions of the highest standard*

As PDF pioneers, we were one of the first companies to provide fast and reliable PDF development tools. We are now celebrating twelve years of innovations in our field.

Our share of the developer market continually increases as we provide cutting-edge solutions and expert services.

Below is just a sampling of clients that implement our PDF technology and utilize our expertise:

Intuit

Sage

CaseWare

Pitney Bowes

Great-West Life Assurance Co.

Siemens and its subsidiaries

Thomson Liquent

New York Life Insurance Co.

Liberty Mutual Insurance Co.

## Developer Tools

### Benchmark tested

|                            |              |
|----------------------------|--------------|
| Amyuni PDF Converter       | 2.55 Seconds |
| Nuance PDF Converter       | 4.78 Seconds |
| Adobe Acrobat Professional | 6.38 Seconds |
| Ghostscript                | 7.02 Seconds |

In early 2008 we benchmark tested our PDF conversion technology against other major PDF drivers, resulting in an astonishing lead in processing time for Amyuni's conversion tools.

[www.amyuni.com/benchmark](http://www.amyuni.com/benchmark)

**Amyuni PDF Converter Developer Pro:** Developers can integrate the functions of our PDF conversion technology into their own applications. It provides the final user the ability to generate PDF files from within that application.

**Amyuni PDF Creator Developer Pro:** Developers can create documents, forms and reports from within their own applications with PDF Creator.

**Amyuni PDF Suite Developer Pro:** Bundles our PDF Converter and PDF Creator technologies into one product, with additional conversion modules. All developer products support .NET and ActiveX platforms.

## End-user Products

**Amyuni PDF Converter Desktop Edition:** Is a high-performing printer driver that enables users to convert any document running under Windows to PDF. Amyuni PDF Converter also supports RTF, HTML, TIFF, JPEG, Excel and XPS.

**Amyuni PDF Suite Desktop Edition:** Provides users with all of the functionality of PDF Converter with the addition of PDF Creator. This enables users to create, edit, combine and process PDF documents.

## Markets Served

We have two main market segments: Developers and End-users.

### Developers:

Ranging from individual developers to large corporations who wish to integrate PDF conversion, creation and editing into their applications. Larger corporations include our PDF technology in either their commercial or internal applications.

### End-users:

Ranging from small businesses to large corporations, these customers buy licenses to offer their staff PDF facilities directly from their desktop applications.

### Pricing

Our product prices range from \$1500 to \$35,000 per annum, including support subscriptions.

Quotes are provided on an individual basis for customization.

## Services

### We provide:

- *Customization services for our existing products*
- *Full customer service and technical support for our products*
- *Professional services for specific customer needs*

“ Our development team consistently received timely responses and outstanding support. In choosing Amyuni, we made the right choice. ”

*Dmitri Krakovsky, Group Product Manager, Intuit*

### DevTouch Pro Touchscreen Tablet

The DevTouch is a fully-open customizable tablet designed to provide mobile application developers with a customizable development, testing, and deployment platform.

[www.devtouchpro.com](http://www.devtouchpro.com)

### New Development Tools

Amyuni announced with the release of version 4.5, the introduction of two exciting new tools: PDF for Silverlight and the OCR Module. Expect even more useful components from Amyuni in the near future.

[www.amyuni.com](http://www.amyuni.com)

### PDF Courier

PDF Courier is an easy-to-use service that provides a secure method of sending messages and documents.

Users are able to confidently send documents and avoid the day-to-day issues related with email.

[www.pdfcourier.com](http://www.pdfcourier.com)

### Continual Product Improvements

Amyuni's proprietary technologies are constantly being improved and developed. Our Microsoft certification under Windows 7 covers both 32-bit, and 64-bit platforms.

By continually offering new features, versions and possibilities within our PDF development suite, we appeal to those with specific needs: We have either developed what they need, or we can build it for them.

### Customization Services

Our expertise is the result of over a decade of research and innovation in the industry, enabling us to provide custom PDF development solutions to businesses worldwide.

Developing and owning our own PDF technology does not restrict us. Being able to customize our technologies is an important reason why many clients have chosen Amyuni.

### Quality Support

Our team offers free technical support during the evaluation period. They even go so far as to build custom applications for potential clients to assure them that their needs can be answered.

Customers entering into a maintenance agreement with us find our support to be timely and effective. Our renewal rate for subscriptions is very high, partly due to the attention to detail provided. The Amyuni support team is based in our Montreal Headquarters.

“ Being able to customize our technologies is an important reason why many clients have chosen Amyuni. ”

“Our PDF technologies are integrated into thousands of applications behind millions of desktops worldwide.”

## Advanced Technology

### High-performance conversion capabilities

Our PDF conversion technology is the fastest on the market (see benchmark test at [www.amyuni.com/en/benchmark](http://www.amyuni.com/en/benchmark)).

### Product maturity

With over ten years of testing, enhancements, and customer feedback, Amyuni products have become trendsetters in the PDF development industry. Newly arrived products are not so accurate and reliable in comparison.

### Cutting-edge

From the PDF/A archiving format, XPS outputs, and seamless Silverlight integration, we always stay ahead of current trends.

### Ease of integration

Our tools only take a few lines of code for developers to integrate into their applications.

## Market Position

Through strengthening of our brand and continually informing prospects of our solutions, our position in the .NET developer market-place as the premier choice for PDF development tools holds firm.

## Advertising Channels

You may have seen advertisements, white papers and press announcements in magazines such as MSDN, Visual Studio, SD Times, or on websites such as Silverlight.net and CodeProject.com.

## Expertise

### **Pioneers in PDF development tools**

Our expertise began with the creation of some of the industry's first PDF development tools.

### **Proprietary Technology**

Owning our own technology does not limit us. When providing OEM licenses, we do not have any licensing restrictions.

### **Customization**

We can customize our technologies to match specific needs. In many cases we are the company of choice because of our extensive experience and wide range of features available.

### **Deep understanding of PDF technologies**

Over a decade of research and innovation in the industry.

Our main advantages come from us being pioneers in the market. ”

## Value

### **Extensive Features**

When purchasing our products, customers get many features in one toolset.

### **Flexible Licensing Options**

Licensing is flexible based on the size of the development team and the number of applications distributed.

### **Quality Service**

We are customer-oriented and care about providing a high standard of customer service.

## Trusted

### **Proven**

Our PDF technologies are integrated into thousands of applications behind millions of desktops worldwide.

### **Reputable**

Over the years the Amyuni brand has become synonymous with PDF expertise and performance.

### **Established**

Prospects only need to take a brief look at our client list to realise that we are capable of seeing the job through.

## Mission

Our mission is to provide software developers and end-users with high performance software products that will reliably facilitate their document management. We do this on the basis of continuous evolution of our own, proven technology, and our unwavering commitment to providing top quality customer service.

While our products are adaptable to various application and end-user needs, our custom development service caters to organizations for a specific need for an application or software component that they have yet to find.

## Management Team

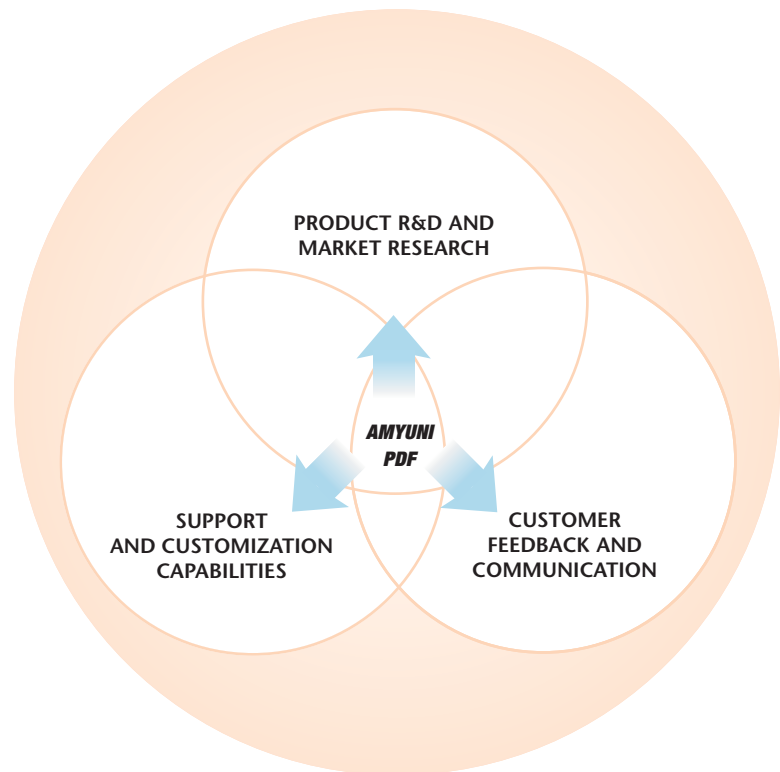

Dany Amiouny – President/CTO

Anabelle Albuquerque – Treasurer/Founder

Jose Pimentel – Customer Service Manager

Alex Furness – Marketing Director

## Amyuni Product Development Model

## Company Biography

Since 1999, Amyuni Technologies has been providing developers and end-users with powerful, reliable software tools that facilitate daily document management. We aim to stay ahead of market trends, to provide top-quality software tools, and to set higher product and service standards.

Amyuni products are integrated into applications used worldwide. Our software tools are the PDF engines behind several leading business applications created by large software companies such as Intuit, Sage, CaseWare and many more.

They are also important tools used by small businesses and independent developers, in their quest to provide you with high-quality software.

Our software products are also used as stand-alones by end-users in hundreds of corporations, small companies, and not-for-profit organizations, facilitating their daily document management. Our customers come from a wide range of industries: accounting, banking, medical, oil and energy, software, and many, many more.
